Bulk Data Transfer Policies and Procedures

Adam Bolton

RTN-086

Latest Revision: 2024-08-14

Abstract

This document describes the policies and procedures for transfer of large volumes of Rubin-LSST scientific data to other sites. It is focused primarily on transferring science data products to Independent Data Access Centers and other analysis facilities. Transfer between Rubin Data Facilities in the course of multi-site data-release production is out of scope for this document.
